NATURAL DAYLIGHT SYSTEMS

Belray LongLite™ Tunnel Lights

(single module or continuous run)

Features:

- Flexibility of design allows the LongLite™ to be used in a variety of applications such as tile or CGI roofs with some modifications of the flashings, although they are most commonly used in a horizontal situation such as ridge lines and deck roofs.
- Low maintenance, anti-condensation design makes the LongLite™ completely weather proof. Available in continuous runs (as required) or single modular units.
- LongLites™ are available as double glazed (for improved insulation) or single glazed units if so required depending on the project.
- Original light transmission is maintained over longer periods due to the self cleaning design.
- Most commonly used glazing in LongLites™ are standard Acrylic, high impact Acrylic and Polycarbonates.
- When glazing is fixed there is no penetration of glazing allowing unrestricted thermal movement.
- Greater design flexibility on continuous runs removes unsightly modular joining strips or bulkheads.
- LongLites™ can be fabricated to most sizes. The only restriction that applies is the availability of glazing sheets.
- Flashing available to co-ordinate with roof colours.

LongLite™ Standard Size chart*		
size (mm)	actual throat size (mm)	ventilation area (sq.m)
1200 X 500	0.6	0.095
1200 X 600	0.72	0.095
1200 X 800	0.96	0.095
1200 X 1000	1.2	0.095
1200 X 1200	1.44	0.095
2400 X 500	1.2	0.19
2400 X 600	1.44	0.19
2400 X 800	1.92	0.19
2400 X 1000	2.4	0.19
2400 X 1200	2.88	0.19

*Other sizes available upon request.

Laburnum Primary School; continuous tinted 90 x 1 metre LongLite.

LongLite with optional shade masters

To Specify:
 When ordering quote:
 Depending on your requirement you will need to order either:
Belray LongLite - Single Module
 or
Belray LongLite - Continuous Length
 Vented or non vented, roof type, roof material, roof colour if required, roof pitch, and depending on style, size with measurement across roof x length up roof.

BELLE DESIGN - Specialising in natural daylight systems

Belle Design Skylights are select tested to AS 4285-1995

Custom Moulded and Fabricated Plastics

- design and construct
- qualified, experienced tradesmen
- full installation or supply only
- commercial and domestic projects
- to architect's, builder's & roofer's specs
- custom made and standard sizes
- barrel vaults, canopies, Longlites
- double and single glazed
- glass skylights & overhead glazing
- circular skylights
- roof access hatches
