Circular Feature Skylights

- CircuLite Skylights are ideally suited for aesthetic features and commercial applications.
- CircuLite skylights are manufactured in polycarbonate, high impact and standard acrylic and come in either clear, opal or tinted finishes.
- CircuLite skylight comes in a standard size range from 700mm diameter to up to 2200mm diameter. Customised sizes available upon request.
- CircuLite skylights are suitable for all roof pitches and are fabricated in square bases to suit all roof types and all types of upstands (timber, steel or concrete).
- Powdercoated aluminium frames and bases are also available depending on specified requirements.
- CircuLite skylights are also available with optional heat reducing alternatives. P.O.A.
- Larger CircuLite skylights in excess of 1200mm in diameter are more suitably fitted to a support upstand.
- Available in Colorbond®, Zinalume® and galvanized finishes.
