

The dimensions listed are the actual FCM dimensions as specified by VELUX. These dimensions may vary slightly from product to product.

VELUX always recommends allowing a tolerance when making custom flashings for the FCMs.

VELUX does not take any responsibility for custom flashings that do not fit the FCMs where the flashings are made to these actual dimensions.

VELUX does not take any responsibility for custom flashings that do not fit the FCMs if the FCMs vary from these dimensions.
